THE THIRD PLACE

Along the diverse pathways of life, the YMCA stands as a third place. Whether that is between work, home, school, house of worship, or other, the Y serves as a gathering place where people find connection. In pursuing our mission for healthy spirit, mind and body, we recognize the range of health disparities that put many populations at a disadvantage.

At times like these, the Y is more critical than ever. As we have done for nearly 150 years, the YMCA of Metro Denver helps meet our community’s greatest needs. We support physical and mental well-being, provide quality child care, address food insecurity and support the pivotal programs that build skills, character and friendships throughout life.

YMCA camp counselors are additional parents, aunts and uncles and older brothers and sisters — the proverbial village helping us to shape our son into the awesome kid he continues to become. We feel like we are doing something great for him by sending him to the Y.”
